Open in browser and navigate to Dev Tools

The screenshot displays the Elastic Kibana web interface. At the top, the Elastic logo is visible. Below it, a navigation bar contains a hamburger menu, a 'D' icon, and a 'Home' button. The main content area features a large 'Welcome to Elastic' heading and a 'Start by adding integrations' section. This section includes an illustration of a server rack and a bar chart, followed by text encouraging users to add data from various sources. Below the text are two buttons: 'Add integrations' and 'Explore on my own'. At the bottom of the main content area, there is a link to the 'Privacy Statement' and a note about disabling usage data collection. On the right side, a sidebar provides navigation options, including 'Home', 'APM', 'Uptime', 'User Experience', 'Security' (with a dropdown arrow), 'Overview', 'Alerts', 'Hosts', 'Network', 'Timelines', 'Cases', 'Endpoints', 'Management' (with a dropdown arrow), 'Dev Tools' (highlighted), and 'Integrations'.
